Oswald picture-CAP

Like Liebeler, Epstein says Oswald "may" have been in one of the two New Orleans Civil Air Patrol Cadet units when he was in ~~junior high~~ school in New Orleans, and that Ferrie had been in charge of one. Ferrie had been in charge of <u>both</u>, and Oswald had been a member, witness this picture of him in uniform. The membership lists were available. Liebeler was told where by a witness, under oath. He ignored it, this obfuscating a major indication of conspiracy. And this is the kind of "evidence" Epstein uses for his criticism of Garrison.
